

Dear friends from **OKRA**,

We would like to express our sincere gratitude for the excellent organization of this past week's visit and exchange program.

It has been a truly inspiring experience — full of learning opportunities, meaningful encounters, and valuable information.

We were deeply impressed by the structure, diversity, and warmth of the activities you prepared for us. Beyond the practical insights, we discovered a community of dedicated people, passionate about promoting active and fulfilling lives for older adults.

Thanks to your openness and hospitality, we gained a much clearer understanding of how solidarity networks function and how seniors can play an essential role in strengthening community life. These are lessons we hope to bring into our own work in Romania.

We returned home inspired and motivated to continue developing our mutual-health initiatives, and we sincerely hope this marks the beginning of a lasting partnership between **OKRA and us**.

With warm appreciation and friendship,
